

MBBS, PhD (Oxon), AFHEA (UK), M. Med (O&G), FAMS, FRCOG (UK)

Adjunct Assistant Prof Huang Zhongwei is Clinician-Scientist and Consultant at the Department of Obstetrics and Gynaecology, Division of Reproductive Endocrinology and Infertility, National University Hospital, Singapore. He is the Deputy Director of NUS Bia-Echo Asia Centre for Reproductive Longevity and Equality (ACRLE), specialising in research for women's reproductive health, ageing, digital medicine, and leading the conversation in women's reproductive longevity and equality. He publishes his research in Nature Aging, Nature Communications, Cell Research, BMC Medicine, BJOG, AJOG, Human Reproduction Open, Human Reproduction, Molecular Human Reproduction and Fertility and Sterility. Adjunct Assistant Prof Huang supports couples with fertility and sexual issues holistically as an integral part of his clinical practice. He also cares for mothers throughout their pregnancy and women in their post reproductive years.

Adjunct Assistant Prof Huang is also the Vice President of the Obstetrical and Gynaecological Society of Singapore, Chair, Section of Reproductive Medicine, College of Obstetricians and Gynaecologists, Singapore, Honorary Treasurer, Menopause Research Society Singapore and President, Society for the Study of Andrology and Sexology, Singapore.
